## **Description**

1 cm diameter pellets. 3 sachets of 400g, 1,200g total.

For use especially on outdoor bonsai. The most popular fertiliser product used by Japanese gardening professionals.

**How to use:** put the pellets on the earth at the beginning of spring, summer and autumn.

**Dosage:** for a 20 cm pot use 3 to 4 grains every 45 days. This dose can be adjusted depending on how fast you want your plants and trees to grow.
